

Google Tools

Find more information and links to all of these tools at <https://www.google.com/intl/en/about/products/>

- Desktop apps may be downloaded from the above link.
- Android and iOS apps may be downloaded on your device through the Play Store (Android) or the App Store (iOS).
- Some of the web-based tools below can be accessed using any Internet browser, but most work best with Chrome.
 - Not all web-based tools work well on mobile devices. For best results, download the Android or iOS app if there is one for your device.

Internet Browser

Chrome	Browse the Internet.	
	If you sign in to Chrome using your Google account, you can view your bookmarks, history, and other settings from any other computer.	
Desktop app Android app iOS app		

Communication and Social Media

Gmail	Send and receive email. Integrates with many other Google services.	
		
Android app iOS app Web-based		

Voice	Get a free U.S. telephone number and forward calls received by that number to numbers of your choice. Make outgoing domestic calls for free, and international calls for a per-minute fee. Voicemail and text messaging are also available.	
		
Android app iOS app Web-based		

Hangouts	Communicate with groups or one-on-one using messages, phone calls, and video calls.	
		
Android app iOS app Web-based		

Google Groups	Create and access discussion forums and mailing lists.	
		
Web-based		

Navigation and Travel

Maps	Get GPS navigation, including satellite imagery, real-time traffic updates, and directions for walking, driving, bicycling, or public transportation.	
		
Android app iOS app Web-based		

Waze	Get GPS navigation, including community-shared reports of accidents, traffic jams, road hazards, gas prices, and more.	
		
Android app iOS app		

Android Auto	Easily control other compatible apps on the go using voice commands and simplified controls. You can use it to get GPS navigation, make and receive phone calls, listen to audio, and send and receive messages.	
		
Android app		

Google Flights	Search for flights and get email price alerts.	
		
Web-based		

Trips	Plan and organize trips. Organize ticket and reservation information, get destination suggestions, and more.	
		
Android app iOS app		

Earth	View satellite imagery and 3D maps of the entire world.	
		
Desktop app Android app iOS app Web-based		

Productivity

Drive	Store files online and access them from anywhere. Invite others to view, download, and collaborate.	
		
Desktop app Android app iOS app Web-based		

Docs	Create and edit documents. Share your documents and collaborate with others in real time.	
		
Android app iOS app Web-based		

Sheets	Create and edit spreadsheets. Share your spreadsheets and collaborate with others in real time.	
		
Android app iOS app Web-based		

Slides	Create and edit presentations. Share your presentations and collaborate with others in real time.	
		
Android app iOS app Web-based		

Forms	Create surveys, quizzes, and other forms, share them with others, and collect the results.	
		
Android app iOS app Web-based		

Sites	Create simple websites and share them with others for viewing or collaborative editing.	
		
Web-based		

Organization

Calendar	Keep track of your schedule by creating and organizing events on a calendar that can be synced across multiple devices. You can invite people to events, share your calendar with others, and even automatically add events to your schedule from Gmail.	
		
Web-based Android app iOS app		

Keep	Take notes using text or voice input. Extract text from photos. Organize your notes and share them with others, collaborating in real time.	
		
Android app iOS app Web-based		

Photos	Share, organize, and store photos.	
		
Android app iOS app Web-based		

Shopping
